PROFESSIONAL SUMMARY

Full Stack Developer with experience in MERN stack and PHP, MySQL along with professional exposure to AWS EMR and big data environments. Seeking a developer-focused role to build scalable applications using strong problem-solving and cloud-backed development skills..

WORK EXPERIENCE

Pravishree Designs Co. | Visakhapatnam, India

July 2025 – Present

Full Stack Developer and Trainer

- Built and deployed web applications using PHP, MySQL, JavaScript, and MERN stack, focusing on clean fullstack logic.
- Accelerated development using AI-assisted tools (Vibe Coding) combined with core web development practices.
- Worked in a startup environment with ownership of end-to-end application development.
- Served as a Web Development Trainer, mentoring students and guiding them through hands-on projects and workflows.

Amazon Web Services | Bangalore, India

Dec 2023 – May 2025

Cloud Support Associate

- Worked extensively with AWS EMR to support big data workloads and distributed processing environments.
- Gained hands-on experience with EC2, IAM, S3, VPC, CloudWatch, SNS, and networking fundamentals.
- Analyzed EMR cluster behavior, logs, and metrics to identify performance and stability issues.
- Supported customers in understanding Hadoop and Spark concepts, cluster configurations, and data processing workflows.
- Used CloudWatch monitoring and alerts to track system health and troubleshoot runtime issues.

PROJECTS

ABSINC Group | Biopharmaceuticals Landing Page

Aug 2025 – Oct 2025

Vibe Coder Analyst

- Developed a responsive landing page for a biopharmaceutical company to establish a professional online presence.
- Optimized images and videos using HTML5 tags and code optimization to improve load time and performance.
- Implemented on-page SEO practices to enhance search visibility and user experience.
- Built using HTML, CSS, JavaScript, leveraging AI tools through a Vibe Coding approach and refining outputs per client needs.

BUYC – MERN Stack Application

April 2023

- Developed a full-stack marketplace for buying and selling second-hand cars.
- Implemented search and filter functionality to enhance user experience.
- Built frontend and backend components using MERN stack.
- Gained hands-on experience in end-to-end full stack application development.
- Live Link: <https://buyc-attryb.onrender.com>

Online Education Platform – Full Stack Web Application

March 2023

- Designed and developed an e-learning platform with a clean and user-friendly interface.
- Implemented admin features for managing courses and platform content.
- Built backend logic and database integration for dynamic content handling.
- Stack used HTML, CSS, JavaScript, PHP, MySQL.
- Live Link: <http://onlinetutorials.infinityfreeapp.com/>

SKILLS

- Full Stack Development: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, MERN Stack (MongoDB, Express.js, React, Node.js).
- Programming & Databases: Python, C, C++, MySQL, MongoDB, Data Structures & Algorithms (DSA), OOPs.
- Cloud & Tools: AWS (EC2, S3, IAM, CloudWatch, SNS, VPC, EMR), Big Data Exposure (Hadoop, Spark), Git, GitHub, VS Code

CERTIFICATIONS

AWS solution architect associate	- Dec 2024
Devtown - Full Stack Web Development	- Nov 2022 - Feb 2023
Codechef CCDSA	- July 2022

EDUCATION

Year	Degree / Certificate	Institute	CGPA
2019 - 2023	B.Tech	Vignan's Institute of Information Technology (A)	8.5
